PROFILE

I'm a **frontend developer** passionate about building **modern, user-friendly, and responsive web applications**. I specialize in **Next.js, React.js, and Tailwind CSS**, leveraging frameworks like **ShadCN** to create seamless and scalable UI experiences. I thrive on writing clean, maintainable code and continuously learning new technologies to enhance my development skills. My goal is to craft intuitive and performant web applications that deliver exceptional user experiences.

PROJECTS

PING PONG PLATFORM

11/2024 – 01/2025

Developed a full-stack web application featuring **authentication (2FA), real-time interactions, and a Pong game**. Implemented **secure user management, WebSocket-based communication, and a responsive UI** using **Next.js, React.js and Tailwind CSS**. Focused on **scalability, performance, and security best practices**.

INCEPTION

04/2024 – 05/2024

Designed and deployed a **containerized system** using **Docker and Docker Compose**, orchestrating multiple services in isolated containers. Configured **Nginx, MariaDB, and WordPress** within a **secure and scalable environment**.

INTERNET RELAY CHAT

06/2024 – 08/2024

Built an **IRC server** from scratch using **C++98**, implementing **client-server communication, channel management, and message handling**. Designed a **fully compliant IRC protocol**, handling multiple clients with **non-blocking I/O (poll)** for efficiency. Focused on **networking, concurrency, and protocol implementation**.
